Subject: RE: Baseline testing for Excelsior

This is the information that is in the application. The Draft Permit requires baseline monitoring.

Thanks Nancy. So that is the complete data set regarding baseline data? I see no references to that data in the draft UIC, but it appears is has been collected prior to the application submission.

Hi Pete,

You can look at the Excelsior Application at Attachment I, I-1 Formation Testing Program, Section 4 – Chemical Characteristics of Formation Fluids for some information on groundwater monitoring.

Hi Nancy,

Can you provide any specifics on baseline testing that has occurred for the Gunnison Project and where I can find that information? Thanks!
